Mr. Dix has been treasurer of the Red Men for the past ten years, and was a prominent member of the organization. After the shortage was discovered he told the officers that he had used the money in the stock market, and it was his intention if the investment turned out all right, to turn the money into the coffers of the treasury. It, however, proved disastrous. From what can be learned of the embezziement it appears that he drew the money from time to time out of the building association, where it was deposited to the credit of the organization.

The matter has been pending for some time, and the Red Men made efforts to secure a settlement, but were unsu, cessful, and last night decided as a last resorts to have him arrested.

The arrest of Mr. Dix came as a surprise to his many friends. He has been a letter carrier at the city postoffice for the past fifteen years, in fact, since free delivery was started in Alexandria. He will probably be given a preliminary hearing in the Police Court to-morrow morning.

In the test case for cancelling the liquor licenses to-day the administration lost. Judge Hanckel, in the Corporation Court, after hearing the defendant's evidence and arguments in the case, suspended judgment against Saloon-keeper Sam Streen, whose license Mayor Riddick wanted revoked. Attorney Duncan, in defending Streen, said there was no proof that Streen keeps a dive, and that there was no evidence that there had ever been that Streen keeps a dive, and that there was no evidence that there had ever been a murder or a knock down and dragout fight in his saloon. The most complained of, said the attorney, were noises in Streen's place, and this he did not regard as sufficient to justify the taking from Streen of his licente. The court said while it was true there had been some disorder in Streen's place, the offense was not sufficient to revoke his license at this time. this time.
